When children have daily activities that are predictable and familiar, this builds their confidence and feelings of security. A consistent daily schedule and clear, easy to follow routines give children a predictable day that helps them to feel safe and in control of their environment. In this session, you will learn how to set your child up for success by developing clear and consistent daily routines by breaking down tasks into simple steps for your child to follow. You will learn how to support your child in completing parts of the routine on their own or with a little support. You will learn simple strategies to establish, teach, and maintain routines, procedures, and appropriate expectations to set your child up for success!
