Phonological awareness is an all-inclusive term which covers skills such as beginning, middle and ending sounds, rhyming, syllables and more! Children often struggle with reading because they have not mastered phonological awareness skills. In this session, you will learn about all the skills that live under the umbrella of phonological awareness. You will learn simple strategies and activities to support your child in developing phonological awareness skills, but the best part is, we'll learn how to do this through play, so your child will have fun while learning these important foundational skills!

**Can't wait to see you there!**
